

In class on Monday morning, **Teacher Grace** gave grade 5 a challenge: collect nails from the environment.

**Leo** wanted to have the most nails. But **Asha** wanted to have more nails than **Leo**. By Tuesday morning, **Leo** only had 20 nails, but **Asha** already had 30 nails.

At lunch on Tuesday afternoon, **Leo** heard **Tom** and **Chichi** making secret plans. **Tom** wanted to collect nails from *The Construction Site*, and **Chichi** wanted to collect nails from the *The New School*.

In class on Wednesday morning, **Asha** heard **Maggie** and **Mary** making secret plans too. **Maggie** wanted to buy nails from *The Hardware*, and **Mary** wanted her father to bring nails from *The Office*.

In class on Thursday morning, **Asha** and **Leo** both had 60 nails. So they secretly decided to bring another 40 nails on Friday morning to win the challenge!

On Thursday night, **Leo** followed **Tom** to *The Construction Site*, and **Asha** followed **Maggie** to *The Hardware*.

In class on Friday morning, **Asha** and **Leo** both had more nails than anyone else. **Asha** had 100 nails and **Leo** had 120 nails! But that's when things got ugly.

**Teacher Grace** said **Mary's** nails were not from the environment. That's when **Chichi** said that he saw **Leo** sneaking around *The Construction Site* with **Tom**. Then **Leo** said he saw **Asha** leaving *The Hardware* with **Maggie**!

**Teacher Grace** decided she had heard enough. **Mary** and **Chichi** and **Leo** and **Tom** and **Asha** and **Maggie** were all disqualified!

And that's how **Sasha** won the challenge with only 7 nails that she collected in *The Market*.

# Instructions

1. Use size 16 "Times New Roman" font
2. Bold every person's name
3. Underline every time
4. Italicize every place
